

AM Systems – Concealed Series

Tapisure Floor Antenna CA7701 Series

Invisible & Smart Protection

Tapisure (CA7701 Series), a new generation Floor System, it protects open-displayed items effectively while keeping unobstructed shopping environment and generating comfortable shopping experience for customers.

Key Features

1 UNOBSTRUCTED PROTECTION

Concealed installation underneath the floor tiles
Water-proof

2 SUPERIOR PERFORMANCE

Ultra-high detection range/height when working with unique ferrite tiles
Enhanced noise immunity
Tag-Too-Close alert
110/220 VAC Switchable PSU
CCTV interfaces
1 Mainboard can control even 4 Antennas

3 PC CONFIGURATION

Virtual oscilloscope
Software configuration
Signal waveform

4 EASY INSTALLATION

Air synchronization

5 OPTIONAL FEATURES

Remote service
V-line management
Compatible with standalone metal detection

Dimensions & Weights

Model	Antenna Frame	Dimension (L*W*T) (mm)	Weight (kg)
CA7701-L16	Floor Antenna	1600*720*20	20
CA7701-L18		1800*720*20	25
CA7701-L21		2100*720*20	30

Detection Height

Detection Ranges	RS01	T041
Height(m)	1.1	1.5

Specifications

Technical specifications

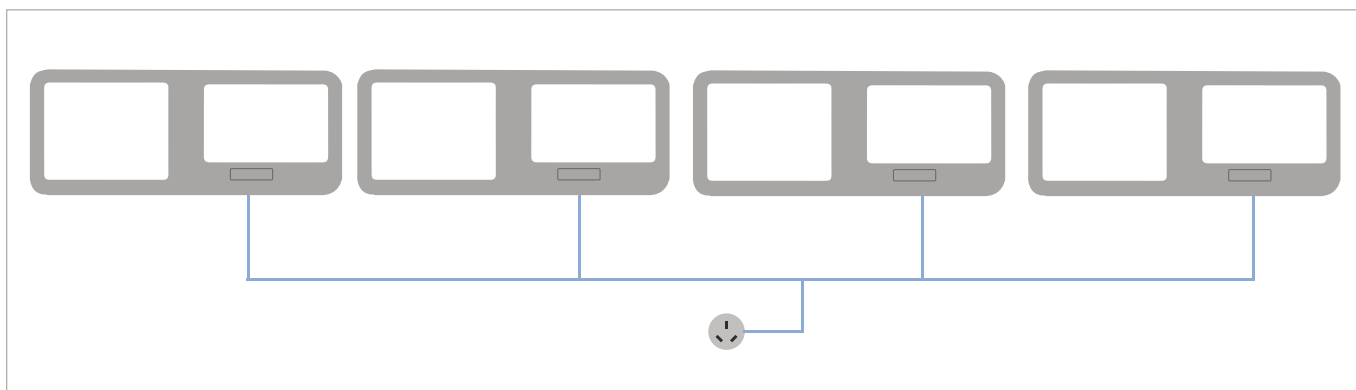

Central frequency	58KHz
TX frequency	58KHz
Power consumption	<80W (1 controller + 4 antennas)
Fuse of PSU	2A
Current (max)	40A
Voltage	110V/220V (AC)
Alarm audio level	100dB

Environmental requirements

Temperature	0-50 °C
Relative humidity	0-90%, non-condensing

Modes of Combinations

1 Mainboard can control even 4 Antennas

Note: For installation details, please refer to installation instructions.
